

Chandan Kumar Das

Software Developer

SUMMARY

Proactive and solution-focused Frontend Engineer with 1.3 years of experience in **React.js**, **JavaScript (ES6+)**, **Redux**, and **UI frameworks like Tailwind CSS**. Skilled in requirement analysis, design, and development of scalable web applications. **Basic understanding of Node.js & Express.js** with a keen interest in full-stack development. Strong problem-solving skills and a team player in agile environments.

PROFESSIONAL EXPERIENCE

Asconsoftech Pvt Ltd

Front End Developer

oct 2023 – oct 2024

- Designed and implemented data visualization solutions using REST API integration, transforming raw data into interactive, insightful visual displays to enhance decision-making and user experience.
- Engineered a content management system (CMS) to manage and update website contents, optimizing user experience and enhancing workflow efficiency.
- Contribute on RMS software, focusing on enhancing its inventory management, sales tracking, and customer relationship modules.

PROFESSIONAL PROJECTS

gintaa ([view](#))

FOOD DELIVERY APPLICATION

- Built a restaurant registration platform enabling new restaurants to onboard seamlessly, set up profiles, and list their food menus, while providing users with an intuitive interface to explore restaurants food items.
- Improved the user profile update process by integrating enhanced security verifications and implementing a progress bar for a seamless user experience
- Implemented advanced filtering and search functionality to enhance the browser experience and improve content discovery.
- Monitored user interactions by leveraging Firebase events to track engagement and improve application performance.

AMS

MANAGING gintaa APP

- Engineered a comprehensive admin panel for gintaa, optimizing the management of web activities and improving administrative efficiency.
- Enhanced operational controls by streamlining workflows, ensuring more effective oversight and smoother web operations.

PERSONAL PROJECTS

Easyshop ([view](#))

E-COMMERCE MANAGEMENT SOFTWARE

[Github](#)

- Design and implement API integration using Axios with the redux for efficient state management. Set up React Router for navigation, and add features like auth, filtering, add-to-cart functionality, hover effects, and add tailwind css for interactive design.

BurgerCrft ([view](#))

BURGER MANAGEMENT WEB APP

[Github](#)

- Developed an intuitive UI with filtering and add-to-cart features for a React-based burger management app, significantly improving user experience and product selection. Integrated Redux for robust state management.
